## FOTHERGILL SEGALE & VALLEY

Certified Public Accountants

To the Selectboard Town of Warren Warren, Vermont

## Report on the Financial Statements

We have audited the accompanying modified cash basis financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Town of Warren, Vermont, as of and for the year ended December 31, 2020 and the related notes to the financial statements, which collectively comprise the Town's basic financial statements as listed in the table of contents.

#### Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with the modified cash basis of accounting described in Note 1; this includes determining that the modified cash basis of accounting is an acceptable basis for the preparation of the financial statements in the circumstances. Management is also responsible for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

#### Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

#### **Basis for Qualified Opinion on Capital Fund**

Management has combined the activity of all long-term projects in a fund called the Capital Fund. The fund includes activity that is required by accounting principles generally accepted in the United States of America to be accounted for in separate Capital Project and Special Revenue Funds. The amount by which this departure would impact the financial position and change in financial position of the major funds and the aggregate remaining fund information has not been determined.

#### **Qualified Opinion**

In our opinion, except for not reporting the financial activity of the Capital Fund into separate Capital Project and Special Revenue Funds, the financial statements referred to above present fairly, in all material respects, the modified cash basis financial position of the Capital Fund of the Town of Warren, Vermont, as of December 31, 2020, and the changes in modified cash basis financial position for the Capital Fund for the year then ended in conformity with the modified cash basis of accounting as described in Note 1.

#### **Unmodified Opinions**

In our opinion, the modified cash basis financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund other than the Capital Fund, and the aggregate remaining fund information of the Town of Warren, Vermont, as of December 31, 2020, and the respective changes in financial position and the budgetary comparison for the General Fund for the year then ended in conformity with the modified cash basis of accounting as described in Note 1.

## **Basis of Accounting**

We draw attention to Note 1 of the financial statements, which describes the basis of accounting. The financial statements are prepared on the modified cash basis of accounting, which is a basis of accounting other than accounting principles generally accepted in the United States of America. Our opinion is not modified with respect to this matter.

#### Other Matters

#### Required Supplementary Information

Management has omitted the Management's Discussion and Analysis and the Schedule of Town's Proportionate Share of the Net Pension Liability and Schedule of Town Contributions that accounting principles generally accepted in the United States of America require to be presented to supplement the basic financial statements. Such missing information, although not a part of basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in the appropriate operational, economic, or historical context. Our opinion on the basic financial statements is not affected by this missing information.

#### Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Town's basic financial statements. The combining and individual nonmajor fund financial statements, as reflected on Schedule 1 and 2, are presented for purposes of additional analysis and are not required parts of the basic financial statements.

The combining and individual nonmajor fund financial statements as reflected on Schedule 1 and 2 are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the modified cash basis financial statements as a whole.

## Other Reporting Required by Government Auditing Standards

In accordance with Government Auditing Standards, we have also issued our report dated August 31, 2021 on our consideration of the Town's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing and not to provide an opinion on the effectiveness of the Town's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with Government Auditing Standards in considering the Town's internal control over financial reporting and compliance.

Respectfully submitted, Fothersill Segale & Valley. CAS

#### NOTES TO FINANCIAL STATEMENTS

#### **DECEMBER 31, 2020**

The Town of Warren, Vermont operates under a Selectboard/Town Clerk/Town Treasurer form of government and provides the following services: public safety, highways and streets, sewage treatment, recreation, public improvements, planning and zoning, and general administrative services.

The Town, for financial reporting purposes, includes all of the funds relevant to the operations of the Town of Warren. The financial statements presented herein do not include agencies which have been formed under applicable state laws or separate and distinct units of government apart from the Town of Warren.

#### NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

These financial statements are presented on the modified cash basis of accounting. This basis of accounting differs from accounting principles generally accepted in the United States of America. Generally accepted accounting principles include all relevant Governmental Accounting Standards Board pronouncements. The Governmental Accounting Standards Board is the accepted standard-setting body for establishing accounting and financial reporting principles: The following is a summary of the more significant policies employed in the preparation of these financials.

#### Reporting Entity

This report includes all of the funds of the Town of Warren, Vermont. The reporting entity consists of the primary government; organizations for which the primary government is financially accountable; and other organizations for which the nature and significance of their relationship with the primary government are such that their exclusion would cause the Town's financial statements to be misleading or incomplete. Component units are legally separate organizations for which the elected officials of the primary government are financially accountable. The primary government is financially accountable if it appoints a voting majority of the organization's governing body and it is able to impose its will on the organization or there is a potential for the organization to provide specific financial benefits to or burdens on the primary government. The primary government may be financially accountable if an organization is fiscally dependent on the primary government. Based on these criteria, there are no entities that should be combined with the financial statements of the Town.

## Basis of Presentation

The Town's financial statements include both government-wide and fund financial statements. The focus of the government-wide statements is on reporting the operating results and financial position of the Town as a whole. The focus of the fund financial statements is on reporting on the operating results and financial position of the most significant funds of the Town.

#### NOTES TO FINANCIAL STATEMENTS

#### **DECEMBER 31, 2020**

## NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

The government-wide statement of net position and the statement of activities present information about the Town, as a whole. These statements distinguish between governmental and business-type activities. Governmental activities generally are financed through taxes, intergovernmental revenues, fees for service and other revenues. Business-type activities are financed in whole or in part by fees charged to external parties.

The Statement of Activities reports both the direct gross and net cost of each of the Town's governmental and business-type functions. Direct expenses are those that are specifically associated with a function. The Statement of Activities reduces direct expenses by related program revenue, including operating and capital grants, contributions and charges for services. Program revenue must be directly associated with the governmental or business-type function. Operating grants include operating-specific and discretionary (either operating or capital) grants while the capital grants column reflects capital-specific grants. The functions are also supported by general government revenue (property taxes, certain intergovernmental revenues, and other revenues not specific to a function).

The financial transactions of the Town are reported in individual funds in the fund financial statements. Each fund is accounted for by providing a separate set of self-balancing accounts that comprises its assets, liabilities, fund equity, revenue and expenditures. Governmental resources are allocated to and accounted for in individual funds based upon the purposes for which they are spent and the means by which spending activities are controlled. The various funds are reported by major fund within the financial statements.

The fund financial statements provide information about the Town's funds. Separate statements for each fund category, governmental and enterprise, are presented.

The following is a description of the major funds of the Town. All remaining governmental funds are aggregated and reported as nonmajor funds.

#### Governmental Funds

General Fund – This is the main operating fund of the Town. It is used to account for all financial resources except those required to be accounted for in another fund.

Capital Fund – This accounts for the acquisition or construction of capital items as well as other long term projects that are funded with both outside sources and transfers from the General Fund.

#### Business Type Activities Fund

Village Septic System Fund – This accounts for the operations of the septic system of the Town.

#### NOTES TO FINANCIAL STATEMENTS

#### **DECEMBER 31, 2020**

## NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

The proprietary fund's operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expense.

#### Measurement Focus

Government-wide and proprietary fund financial statements are reported using the economic resources measurement focus within the limitations of the modified cash basis of accounting. Equity is segregated into restricted and unrestricted net asset balances using the modified cash basis of accounting. Operating statements present increases and decreases in modified cash basis net position.

Governmental fund financial statements are reported using the current financial resources measurement focus within the limitations of the modified cash basis of accounting. Fund balances (modified cash basis) are considered a measure of available spendable resources and are segregated into restricted and unrestricted amounts. Operating statements of these funds present increases and decreases in modified cash basis fund balances.

## Fiduciary Funds

Agency funds are used to account for assets held by the Town as an agent for individuals, private organizations and other governments. Agency funds are custodial in nature (assets equal liabilities) and do not involve the measurement of results of operations.

#### Basis of Accounting

Basis of accounting refers to the point at which revenues or expenditures/expenses are recognized in the accounts and reported in the financial statements. It relates to the timing of the measurements made regardless of the measurement focus applied.

The Town prepares its financial statements using the modified cash basis of accounting. Consequently, certain revenues and related assets are recognized when received rather than when earned and certain expenditures and related liabilities are recognized when paid rather than when the liability is incurred. Capital assets are expensed when purchased. Loan proceeds are recorded as other financing sources and loan repayments are recorded as expenses or expenditures. The modification to the cash basis is the Town records 1) investments as an asset at cost and 2) property taxes collected that are due to the State of Vermont, the local School District, and paid in advance as liabilities.

The modified cash basis of accounting is a comprehensive basis of accounting other than accounting principles generally accepted in the United States of America.

#### NOTES TO FINANCIAL STATEMENTS

#### **DECEMBER 31, 2020**

#### NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

#### Cash and Cash Equivalents

The Town has defined cash and cash equivalents to include cash on hand, demand deposits, and cash with fiscal agent with terms less than one year.

#### Investments

Investments are stated at cost. The Town invests as allowed by State statute.

#### Net Position

Net position represents the difference between assets and liabilities in the statement of net position. Net position is divided into three components:

Invested in capital assets, net of related debt — consist of the historical cost of capital assets less accumulated depreciation and less any debt that remains outstanding that was used to finance those assets plus deferred outflows of resources less deferred inflows of resources related to those assets. On the modified cash basis of accounting, this category of net assets is not used. The Town expenses its capital assets when purchased thereby not having a net position component of invested in capital assets, net of related debt.

<u>Restricted net position</u> – consist of assets that are restricted by the Town's creditors, enabling legislation, by grantors, and by other contributors.

Unrestricted net position – all other net position is reported in this category.

#### Fund Equity

GASB Statement 54 "Fund Balance Reporting and Governmental Fund Type Definitions" provide fund balance categories to make the nature and extent of the constraints placed on a government's fund balance more transparent. The following classifications describe the relative strength of the spending constraints placed on the purposes for which resources can be used:

Nonspendable fund balances - Indicates the portion of fund equity that cannot be spent due to their form (e.g. inventories and prepaids) or funds that legally or contractually must be maintained intact.

<u>Restricted</u> fund balances - Indicates the portion of fund equity that is mandated for a specific purpose by external parties, constitutional provisions, or enabling legislation (e.g. federal and state grants, bondholders, trust and trustee accounts).

#### NOTES TO FINANCIAL STATEMENTS

#### **DECEMBER 31, 2020**

## NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

<u>Committed</u> fund balances - Indicates the portion of fund equity that is set aside for a specific purpose by the Town's highest decision making authority.

<u>Assigned</u> fund balances - Indicates the portion of fund equity that is set aside with the intent to be used for a specific purpose by the Select Board or official that has been given the authority to assign funds (e.g. encumbrances, subsequent budgets). Assigned funds cannot cause a deficit in unassigned fund balance.

<u>Unassigned</u> fund balances – Indicates the portion of fund equity that has not been classified in the previous four categories. All funds in this category are considered spendable resources. This category provides the resources necessary to meet unexpected expenditures and revenue shortfalls.

The Town does not have a fund balance policy identifying the Town's highest decision-making authority as required by GASB 54. Therefore, none of the Town's fund balances have been classified as committed in the financial statements.

When an expenditure is incurred that would qualify for payment with either restricted or unrestricted funds, it will be paid from restricted funds. When an expenditure is incurred that qualifies for payment from either of the three unrestricted fund balance categories, it will be applied first to committed, then assigned, then unassigned.

#### Interfund Balances

Transactions between funds that are representative of lending/borrowing arrangements that are outstanding at the end of the fiscal year are referred to as "due to/from other funds". Any residual balances outstanding between the governmental activities and business-type activities are reported in the government-wide financial statements as "internal balances".

#### Use of Estimates

The preparation of financial statements in conformity with the modified cash basis of accounting requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

#### **Budget Adoption**

Budgets are approved at the annual Town Meeting in March. Any budget changes require voter approval. There were no budget changes during the year.

#### NOTES TO FINANCIAL STATEMENTS

**DECEMBER 31, 2020** 

#### **NOTE 2 - DEPOSITS AND INVESTMENTS**

Custodial Credit Risk – Deposits. Custodial credit risk is the risk that in the event of a bank failure, the Town's deposits may not be returned to it. As of December 31, 2020, the Town's bank balances were exposed to custodial credit risk as follows.

Insured - FDIC	\$ 500,000
Uninsured - covered by SPIC	1,059
Uninsured - collateralized	 8,155,823
Total bank balances	\$ 8,656,882

The difference between the bank balances and the balances on the financial statements is due to outstanding items. The cash balance included certificates of deposits of \$1,746,555 that have interest rates of between 0.2% and 0.75% and mature within one year.

#### **Investments**

Credit Risk – investments. The Town has an investment policy that limits its investment choices to policies established by the Selectboard. Investments at December 31, 2020 are recorded at cost and are as follows:

	Cost	Fa	ir Value	Unrea Gain/e	ilized (Loss)
Money market funds Mutual funds	\$ 48 71,974	\$	48 82,305	\$	0,331
Total	\$ 72,022	\$	82,353	\$ 1	0,331

Fair Value Measurements – All of the Town's investments are considered Level 1 inputs, which are unadjusted, quoted prices in active markets for identical assets at the measurement date. The types of assets carried at Level 1 fair value generally are securities listed in active markets. The Town has valued their investments listed on national exchanges at the last sales price as of the day of valuation using the market valuation approach.

Concentration of Credit Risk – The Town places no limit on the amount the Town may invest in any one issuer.

Interest Rate Risk – The Town does not have a formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates.

#### NOTES TO FINANCIAL STATEMENTS

**DECEMBER 31, 2020** 

#### NOTE 3 - INTERFUND TRANSFERS AND INTERFUND BALANCES

Transfers are used to move revenues from the fund that statute or budget requires to collect them to the fund that statute or budget requires to expend them in accordance with budgetary authorizations. \$1,031,700 was transferred to the Capital Fund from the General Fund.

As of December 31, 2020 the interfund balances were as follows:

Fund:	Receivable		F	Payable
General Fund	\$ 11,906		\$	0
Village Septic System Fund		0		17,606
Restoration Fund		762		0
Library Fund		4,938		0
Total	\$	17,606	\$	17,606

#### **NOTE 4 – SHORT-TERM DEBT**

On May 12, 2020, the Town signed a tax anticipation note with Northfield Savings Bank for \$750,000 at 1.50% per annum. During the year, \$400,000 was drawn down from the Line of Credit. Principal and interest on the Line of Credit was paid in full on September 10, 2020.

The following is a summary of the changes in short-term debt:

Balance January 1, 2020	\$ 0
Loan proceeds Principal payments	400,000 (400,000)
Balance December 31, 2020	\$ 0

Interest paid on short-term debt for the year ended December 31, 2020 was \$1,983.

#### **NOTE 5 - RISK MANAGEMENT**

The Town of Warren, Vermont is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The Town of Warren, Vermont maintains insurance coverage through the Vermont League of Cities and Towns Property and Casualty Intermunicipal Fund, Inc. covering each of those risks of loss. Management believes such coverage is sufficient to preclude any significant uninsured losses to the Town of Warren, Vermont. Settled claims have not exceeded this coverage in any of the past three fiscal years. The Town must remain a member for a minimum of one year and may withdraw from the Fund after that time by giving sixty-days' notice. Fund underwriting and rate setting policies have been established after consultation with actuaries. Fund members are subject to a supplemental assessment in the event of deficiencies. If the assets of the Fund were to be exhausted, members would be responsible for the Fund's liabilities.

## NOTES TO FINANCIAL STATEMENTS

## DECEMBER 31, 2020

## **NOTE 6 - LONG-TERM LIABILITIES**

Long-term liabilities at December 31, 2020 consisted of the following:

		Du	e Within
	 Total	0	ne Year
Bond payable, State of Vermont Special Environmental Revolving Loan Fund, wastewater system improvements, interest at 0.0%, principal payments of \$39,376 due annually on August 1 through 2026.	\$ 236,259	\$	39,376
Bond payable, Vermont Municipal Bond Bank, fire bond improvements, principal payments of \$15,000 due December 1 through 2025, various interest rates ranging from 3.0% to 4.7%, 3.91%, interest paid semi-annually on			
June 1 and December 1.	75,000		15,000
Bond payable, Vermont Municipal Bond Bank, solar array, principal payments of \$23,141 due November 15 through 2034, various interest rates ranging from .513% to 3.993%,			
interest paid semi-annually on May 15 and November 15.	323,982		23,141
Total long-term liabilities	\$ 635,241	\$	77,517

Interest paid on long-term liabilities for the year ended December 31, 2020 was \$14,866.

During the fiscal year ended December 31, 2020 the following changes occurred in bonds payable:

Long-term liabilities at January 1, 2020	\$ 712,758
Bond payments	 (77,517)
Long-term liabilities at December 31, 2020 Due within one year	635,241 (77,517)
Due after one year	\$ 557,724

#### NOTES TO FINANCIAL STATEMENTS

**DECEMBER 31, 2020** 

#### **NOTE 6 - LONG-TERM LIABILITIES (Continued)**

Long-term liabilities will mature as follows:

	F	Principal	 Interest	 Total
2021	\$	77,517	\$ 13,789	\$ 91,306
2022		77,517	12,466	89,983
2023		77,517	12,466	89,983
2024		77,517	9,817	87,334
2025		77,517	8,544	86,061
2026-2030		155,084	30,744	185,828
2031-2034		92,572	9,115	101,687
	\$	635,241	\$ 96,941	\$ 732,182

#### **NOTE 7 - PENSION PLAN**

#### VMERS Defined Benefit Plan

Plan description. The Town contributes to the Vermont Municipal Employees' Retirement System (VMERS) which is a cost sharing multiple employer defined benefit pension plan that is administered by the State Treasurer and its Board of Trustees. It is designed for school districts and other municipal employees that work on a regular basis and also includes employees of museums and libraries if at least half of that institution's operating expenses are met by municipal funds. An employee of any employer that becomes affiliated with the system may join at that time or at any time thereafter. Any employee hired subsequent to the effective participation date of their employer who meets the minimum hourly requirements is required to join the system. During the year ended June 30, 2020, the retirement system consisted of 353 participating employers.

The plan was established effective July 1, 1975, and is governed by Title 24, V.S.A Chapter 125.

The general administration and responsibility for formulating administrative policy and procedures of the retirement system for its members and their beneficiaries is vested in the Board of Trustees, consisting of five members. They are the State Treasurer, two employee representatives elected by the membership of the system, and two employer representatives – one elected by the governing bodies of participating employers of the system and one selected by the Governor from a list of four nominees. The list of four nominees is jointly submitted by the Vermont League of Cities and Towns and the Vermont School Boards Association.

All assets are held in a single trust and are available to pay retirement benefits to all members. Benefits available to each group are based on average final compensation (AFC) and years of creditable service.

#### **Summary of System Provisions**

Membership is open to all full time employees of participating municipalities. The municipality elects coverage under Groups A, B, C, or D. The Town only has Group B members.

Creditable service is service as a member plus purchased service.

#### NOTES TO FINANCIAL STATEMENTS

#### **DECEMBER 31, 2020**

#### **NOTE 7 - PENSION PLAN (Continued)**

Covered wages paid under Group B of the plan were \$581,354 out of total wages of \$706,007. Employer contributions by the Town were \$34,111 for 2020. Employee contributions paid by the Town were \$30,477 for 2020. The Town pays for both the employer and employee share.

Pension Liabilities, Pension Expense, Deferred Outflows of Resources, and Deferred Inflows of Resources Related to Pensions. Since the Town uses the modified cash basis of accounting, the pension liability and related deferred inflows/outflows are not recorded. This information is being provided for disclosure purposes only. At December 31, 2020, the Town reported a liability of \$421,013 for its proportionate share of the net pension liability. The net pension liability was measured as of June 30, 2020, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The Town's proportion of the net pension liability was based on a projection of the Town's long-term share of contributions to the pension plan relative to the projected contributions of all participating entities, actuarially determined. At June 30, 2020, the Town's proportion was 0.16643%, which was an increase of 0.00428% from its proportion measured as of June 30, 2019.

At June 30, 2020, the Town reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	D	eferred	Ι	Deferred		
	Out	flows of	In	Inflows of		
	Re	sources	R	esources		
Difference between expected and						
actual experience	\$	37,917	\$	1,248		
Changes in proportion and	•					
differences between Town						
contributions and proportionate						
share of contributions		4,608		16,030		
Changes in assumptions		56,444		0		
Difference between projected and						
actual investment earnings	40,266		·	0		
Total	\$	139,235	\$	17,278		

The amounts reported as deferred outflows of resources net of deferred inflows of resources will be recognized in pension expense as follows:

Year	ending d	June	30,
------	----------	------	-----

2021	\$ 31,918
2022	34,004
2023	31,179
2024	24,857

#### **Actuarial Assumptions**

The total pension liability in the June 30, 2020 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

#### NOTES TO FINANCIAL STATEMENTS

#### **DECEMBER 31, 2020**

#### NOTE 7 - PENSION PLAN (Continued)

Interest rate of return -7.0%, net of pension plan investment expenses, including inflation.

Salary increase – Varying service-based rates from 0-10 years of service, then a single rate of 4.5% (includes assumed inflation rate of 2.30%) for all subsequent years.

#### Mortality:

#### Pre-Retirement:

Groups A, B, C – 40% PubG-2010 General Employee below-median and 60% of PubG-2010 General Employee, with generational projection using scale MP-2019.

Group D – PubG-2010 General Employee above-median, with generational projection using scale MP-2019.

#### Healthy Post-retirement – Retirees:

Groups A, B, C -104% of 40% PubG-2010 General Healthy Retiree below-median and 60% of PubG-2010 General Healthy Retiree, with generational projection using scale MP-2019.

Group D – PubG-2010 General Healthy Retiree, with generational projection using scale MP-2019.

#### *Healthy Post-retirement – Beneficiaries:*

Groups A, B, C - 70% Pub-2010 Contingent Survivor below-median and 30% of Pub-2010 Contingent Survivor, with generational projection using scale MP-2019.

Group D – Pub-2010 Contingent Survivor, with generational projection using scale MP-2019.

#### Disabled Post-retirement:

All groups – PubNS-2010 Non-Safety Disabled Retiree Mortality Table with generational projection using scale MP-2019.

Spouse's age – females three years younger than males.

Cost of Living Adjustments – 1.1% for Group A members and 1.2% for Groups B, C and D members. The January 1, 2020 and January 1, 2021 COLAs are 0.8% and 0.4% respectively, for all groups.

Actuarial Cost Method – Entry Age Actuarial Cost Method. Entry Age is the age at date of employment or, if date is unknown, current age minus years of service. Normal Cost and Actuarial Accrued Liability are calculated on an individual basis and are allocated by salary, with Normal Cost determined using the plan of benefits applicable to each participant.

Assets – The valuation is based on the market value of assets as of the valuation date, as provided by the System. The System uses an "actuarial value of assets" that differs from market value to gradually reflect year-to-year changes in the market value of assets in determining the contribution requirements.

Inflation – 2.3% per year

#### NOTES TO FINANCIAL STATEMENTS

**DECEMBER 31, 2020** 

#### NOTE 7 - PENSION PLAN (Continued)

Long-term expected rate of return

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of arithmetic real rates of return for each major asset class included in the pension plan's target asset allocation as of June 30, 2020, is summarized in the following table:

		Long-Term
	Target	Expected Real
Asset Class	Allocation	Rate of Return
Global Equity	29.00%	7.07%
US Equity - Large Cap	4.00%	6.19%
US Equity - Small/Mid Cap	3.00%	6.93%
Non-US Equity - Large Cap	5.00%	7.01%
Non-US Equity - Small Cap	2.00%	7.66%
Emerging Markets Debt	4.00%	3.66%
Core Bond	20.00%	0.39%
Private & Alternate Credit	10.00%	6.03%
US TIPS	3.00%	-0.20%
Core Real Estate	5.00%	4.06%
Non-Core Real Estate	3.00%	6.43%
Private Equity	10.00%	11.27%
Infrastructure/Farmland	2.00%	5.44%
•	100.00%	

Discount Rate – The discount rate used to measure the total pension liability was 7.0% as of June 30, 2020. The projection of cash flows used to determine the discount rate assumed plan member and employer contributions will be made at rates set by the Board (employers) and statute (members) with scheduled increases through July 1, 2021. Further, based upon Board resolution, projected contributions beginning July 1, 2022, and each subsequent July 1, through 2025 include additional total contribution increases of 0.50% per year. For this purpose, only employer contributions that are intended to fund benefits of current plan members and their beneficiaries are included. Projected employer contributions that are intended to fund the service costs of future plan members and their beneficiaries, as well as projected contributions from future plan members, are not included. Based on those assumptions, the pension plans' Fiduciary Net Position was projected to be available to make all projected future benefit payments of current plan members as of June 30, 2020. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

#### NOTES TO FINANCIAL STATEMENTS

**DECEMBER 31, 2020** 

#### **NOTE 7 - PENSION PLAN (Continued)**

The following presents the net pension liability calculated using the discount rate of 7.0%, as well as what the net pension liability would be if it were calculated using a discount rate that is 1 percent lower (6.0%) or 1 percent higher (8.0%) than the current rate:

1% De	1% Decrease (6.0%) Discount F		int Rate (7.0%)	1% Ir	1% Increase (8.0%)		
\$	643,222	\$	421,013	\$	238,181		

Plan Fiduciary Net Position. Detailed information about the Plan's fiduciary net position is available in the State of Vermont's Annual Comprehensive Financial Report (ACFR). The ACFR can be viewed on the State's Department of Finance and Management website.

#### **NOTE 8 - PROPERTY TAXES AND ABATEMENTS**

Property taxes are due August 10. Interest is assessed at 1% per month and a penalty of 8% is assessed when the taxes become delinquent on November 10<sup>th</sup>. The Town bills and collects its own property taxes and the education taxes for the State of Vermont. Town tax revenue is recognized when cash is received. For 2020, the tax rate was as follows:

	Re	sidential	Non-	Residential
Education	\$	1.6814	\$	1.6761
Municipal		0.4100		0.4100
	\$	\$ 2.0914		2.0861

The State of Vermont operates a Current Use Program and enters into tax abatement agreements directly with landowners. Enrolled landowners are required to manage their land in accordance with an approved plan, and the land is subject to a lien to recover taxes abated if the land is ever developed. In exchange, the landowners receive a reduction in assessed value on their property tax bills, which results in a reduction of property tax revenue to the Town. For 2020, the amount of Town property taxes foregone as a result of the Current Use Program was approximately \$76,000. In accordance with 32 V.S.A § 3760, the State of Vermont limits the total loss of revenue to zero by providing the Town with a Hold Harmless payment in the following year that is equivalent to the taxes previously foregone.

# INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

Board of Selectmen Town of Warren, Vermont Warren, Vermont

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States, the modified cash basis financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Town of Warren, Vermont as of and for the year ended December 31, 2020, and the related notes to the financial statements, which collectively comprise the Town's basic financial statements and have issued our report thereon dated August 31, 2021. We issued a qualified opinion due to not reporting the financial activity of the Capital Fund into separate Capital Project and Special Revenue Funds. We issued unmodified opinions related to the other opinion units.

#### **Internal Control Over Financial Reporting**

In planning and performing our audit of the financial statements, we considered the Town's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Town's internal control. Accordingly, we do not express an opinion on the effectiveness of the Town's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or, significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

## **Compliance and Other Matters**

As part of obtaining reasonable assurance about whether the Town's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

#### Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Respectfully submitted,
