

As we transition from winter to spring, Vermont's mud season is upon us. The combination of melting snow, thawing ground, and rain has created muddy, soft road surfaces — and this year's conditions are shaping up to be especially severe.

The Warren Highway Department strongly advises avoiding dirt roads whenever possible and minimizing traffic to prevent further damage. Many roads may become impassable despite ongoing monitoring and maintenance efforts. We appreciate your patience, cooperation, and understanding as we work to manage these challenging conditions.

Please also note that due to deteriorating roads, some Warren Town Office officials will be working remotely, resulting in limited in-person office hours.

Thank you for helping us protect our roads and keep our community safe.
